

1976 ANNUAL REPORT on the MINNESOTA LEGISLATURE

by the
LEGISLATIVE EVALUATION ASSEMBLY of MINNESOTA

The Legislative Evaluation Assembly (LEA) of Minnesota is pleased to present its evaluation of the performance of the 201 Senators and Representatives of the Minnesota Legislature during the 1976 legislative session.

This year, in addition to the Annual Report, LEA has published a 1976 Voting Summary. This is an abbreviated form, extracted from the 1976 Annual Report, listing only the voting percentage and ranking of each legislator.

Copies of both the Annual Report and the Voting Summary can be ordered using the coupon included with this report. A more detailed analysis of legislation sponsored by individual legislators is also available.

VOTING SCORES

As in previous LEA reports, legislators are evaluated not only on their votes on key issues, but also upon the kinds of bills they introduce. Twenty-one key votes from the Senate and twenty-six from the House were selected for the 1976 session voting. As some are of greater importance than others, weights of 1, 2, or 3 were assigned to each vote.

If a legislator was excused from attendance for the day of the vote, or for that part of the day in which the vote occurred, an "A" is marked in his line for that vote, and the points for that

vote are not included in the calculation of his score. If he was present but did not vote, an "n" is equivalent to a wrong vote on a bill having a weight of one point, because the legislator is assumed to have avoided his responsibility to represent his constituents on this vote. Voting scores are given as a percentage of correct voting.

INTRODUCTIONS SCORES

Every bill introduced in 1976 which LEA judged to be of major importance were rated by LEA anywhere from -4 to +4. Bills rated 4 were of topmost importance, those rate 3 of great (but somewhat less than the 4) importance, and so on. If a bill supported the principles of LEA, it was given a "+". If it ran counter to those principles, it was given a "-". For example, H.F. 1530, a metro planning bill, was rated "-4".

Bills were also sorted into categories as follows:

CAT. NAME

- A - American Form of Government
- B - Private Property
- C - Order, Religion, and Morality
- D - Spending and Taxes
- E - Education
- F - Welfare
- G - Control of the Individual
- H - Miscellaneous

**For an
Informed Citizenry**

Taking the example of the metro planning further, you can see that its fits best in Category A. American Form of Government. The full rating given that bill was, therefore, "-4".

Every legislator who introduced that bill was given -4 points in LEA's introduction voting, except the primary author, who was given twice that, or -8. The points for all the rated bills each legislator introduced was summed and is shown in the third column, right after the voting score. This number gives the reader an indication of both the quality and quantity of bills sponsored by each Senator or Representative.

The following (5th) column shows the Introduction Quotient. This indicates the

average value of the bills introduced by a legislator. For example, if Rep. Smith introduced three bills having ratings of -4A, -3B, and +1B, his IQ would be -2. If Sen. Jones introduced four bills rated +3A, +3C, +2C, +2G, his IQ would be +2.5.

The bills used in the vote ratings in this report are grouped under heading A, B, C, etc. corresponding to the legislative categories listed above. In this way, it is possible for you to see the categories in which your representative is strong or weak. Several legislators, for instance, did poorly in Category A (American Form of Government) and Category B (Private Property) while scoring well in Category C (Order, Religion, and Morality).

THE VOTER NEVER GETS THE WHOLE STORY

Information is vital if the taxpayer-voter is to have a basic understanding of the problems he must face. All legislation is designed to appeal to the Minnesota public and is made palatable largely through semantics. But that is not the entire story — someone must pay, someone must lose his liberties, someone must surrender his rights to property, as these constitutional rights are transferred to others. The LEA attempts to provide some understanding of the direction of such legislation.

H.F. 1892 Relates to Civil Defense. Provides Executive Council declared emergency, and provides executive powers in natural disasters, riots, paramilitary actions. Also provides for "prevention of disasters." This bill changes the present provisions, accords some reasonable powers, and some that are seriously questioned—since they give a privilege that may be subverted. Compact would provide operation with non-contiguous party states and "the term "state" may include any neighboring or foreign country or province or state thereof". A NO vote receives 3 points.

S.F. 276 No Union Dues for Political-Funds, Call from Comm. 38-86 Amends Minnesota Statutes 1974 relating to the definition of "Political" funds for purpose of elections.
